2023

KANSAS CRIME INDEX

KANSAS BUREAU OF INVESTIGATION INCIDENT BASED REPORTING UNIT

Page intentionally left blank

Total Index Crimes: The Federal Bureau of Investigation (FBI) defines index crimes as murder, rape, robbery, aggravated assault/battery, burglary, theft, motor vehicle theft, and arson. In 2023, there were 66,782 property crimes and 13,294 violent crimes submitted by Kansas law enforcement agencies to the Kansas Bureau of Investigation (KBI). Total index crimes decreased 7.4% from the 10-year average but increased 1.5% from 2022 to 2023. The total index crimes were heavily impacted by the total property index crimes due to the number of property crimes reported compared to violent crimes.

Crime Index Rate: The crime index rate is the number of all index crimes per 1,000 people. This increased from 26.7 offenses per 1,000 people in 2022, to 27.0 in 2023.

Violent Crime Index Rate: The violent crime index rate was 9.8% above the 10-year average, but decreased 4.3% from 2022. In 2023, the violent crime index rate for Kansas was 4.5 offenses per 1,000 people. These include: murder, rape, robbery and aggravated assault/battery.

Property Crime Index: The property crime index rate was 10.0% below the 10-year average. In 2023, the property index crime rate was 22.5 offenses per 1,000 people. These include: burglary, theft, motor vehicle theft, and arson.

Property index crimes have been declining for the past six years. However, in 2023, total property crimes increased 2.6% from 2022. In 2023, there were 49,754 theft offenses, which accounted for 74.5% of total property crimes reported. There were 17,028 burglary and motor vehicle thefts, which accounted for the remaining 25.5% of the property crimes reported.

Murder: There were 157 murders reported in 2023, which was 3.3% above the 10-year average, but 6.5% less than 2022. Despite this decrease, that may be a positive indicator, it was a 23.6% increase from the pre-COVID ten-year average of 127 murders.

Finding a common circumstance for these murders is difficult, as 47.1% of the reports indicated "unknown circumstance." Also, 16.6% of the murders listed an unknown suspect. Arguments, as a circumstance, accounted for 28.0% of murders; domestic violence murders accounted for 20.4%; illegal drug transactions totaled 1.9%; and gang activity and drive-by incidents made up 1.9%. All other circumstances totaled 21.0% of the total murders in 2023.

Rape: Rapes were 6.0% below the 10-year average. There was a decrease of 12.6% from 2022, and a 1.4% decrease from the 2019 pre-COVID ten-year average of 1,136.

Robbery: Robberies saw a 22.5% decline from the 10-year average and a 0.6% decrease from 2022.

Aggravated Assault/Battery: Aggravated assaults and batteries have risen substantially since 2015. In 2023, they were 15.2% above the 10-year average, but saw a 3.0% decrease from the 2022 totals. Notably, these numbers represent a 36.4% increase from the 2019 pre-COVID ten-year average of 8,005 per year.

Burglary: In 2023, there were 8,748 reported burglaries, which was 26.7% below the 10-year average and 1.1% below 2022 numbers. This was the lowest number since 1966, when 10,712 were reported and was

42.3% less than the 2019 pre-COVID 10-year average of 15,164.

Theft: Reported thefts (other than motor vehicles) were 8.5% below the 10-year average, but 2.9% above 2022 numbers. This was a 15.6% decline from the 2019 pre-COVID 10-year average of 58,942.

Motor Vehicle Thefts: Motor vehicle thefts were 4.9% above the 10-year average. This statistic is notable because motor vehicle thefts tend to have a higher rate of reporting compared to other property offenses, suggesting they would be a more accurate barometer of the actual number of property offenses occurring in our state. In 2023, there was a 4.8% increase from 2022, and a 15.8% increase from the 2019 pre-COVID 10-year average of 7,149.

Arson: Arsons were 18.4% below the 10-year average and decreased by 7.7% compared to those reported in 2022. Arson figures are intended to stand apart from violent or property indices and are not included within those statistics. In 2023, there was a 31.2% decrease from the 2019 pre-COVID 10-year average of 666.

APPENDIX A

Index crimes are defined by the Federal Bureau of Investigation as the following offenses:

- Murder (Also used for violent crime index)

- Rape (Also used for violent crime index)

- Robbery (Also used for violent crime index)

- Aggravated Assault/Battery (Also used for violent crime index)

- Burglary (Also used for property crime index)

- Theft (Also used for property crime index)

- Motor Vehicle Theft (Also used for property crime index)

Methodology

The Kansas Bureau of Investigation (KBI) compiled the following 2023 statistical crime report based on data submitted by local and state law enforcement agencies prior to 5/3/2024.

The data represents the most accurate information available, reflecting crime as reported by law enforcement agencies through the Kansas Incident Based Reporting System (KIBRS).

This system enables crime information from standard offense and arrest reports to be reported by the relevant law enforcement agencies. This report does not represent all criminal incidents committed throughout the State of Kansas, as it is dependent upon victims reporting crimes to law enforcement agencies and upon those agencies submitting incident reports to the KBI.

This information is designed to support the *Crime in the U.S.* report published annually by the FBI. However, the FBI excludes certain data when fluctuations fall outside of its mathematical assumptions, resulting in different numbers than reported here. Also, the FBI deadline for submissions is March while the deadline for this publication is May.

The final responsibility for data submissions rests with the individual law enforcement agency. Although the KBI makes every effort through its editing procedures, training practices, and correspondence to ensure the validity of the data it receives, the accuracy of the statistics depends primarily on the adherence of each contributor to the established standards of reporting.

Data were gathered by one of three ways:

1. Manual. Reports are mailed from the law enforcement agency to the KBI and the data are entered manually by KBI staff into the KIBRS. These reports must pass a variety of validations to ensure accuracy and completeness in order to be accepted into the KIBRS.
2. Electronic. Agencies may submit their reports directly into the system through an electronic gateway. These reports also had to pass a series of validations in order to be accepted by the system.
3. Direct. Direct reporting, more commonly called summary reporting, involves an agency merely providing the KBI with a count for each crime. This form of reporting is dependent on the agency making proper classification of offenses and does not provide any additional information regarding a case. This type of reporting is being phased out in order to receive more detailed incident data in the future.

The following factors should be considered when viewing this data:

1. This report distinguishes between agencies who have sent no data and those who sent incomplete data. If an agency submitted offense reports for two months or less in the year, they are listed as "not having submitted data." If an agency submitted offense reports for nine months or less in the year, they are listed as "did not submit complete data."

2. This report separates university police departments from the county they reside and places them in a grouping of all campus police. This was done in order to provide consistency as compared to state agencies and tribal police departments.

3. The following guidelines were used for purposes of counting offenses: Murders, Rapes, and Aggravated Assaults were counted per victim. Robberies, Burglaries, Thefts, and Arsons were counted per incident. Motor Vehicle Thefts were counted per vehicle stolen.

NOTES: **Percent of Population Not Covered:**   2.55%

1) Data is as of 5/3/2024 from reports that have been submitted to the KBI and are counted by NIBRS standards.

2) Population estimates are received from the FBI on an annual basis. University population is from Kansas Board of Regents FTE enrollment.

3) Agency submitted incomplete data for the current year.

4) Agency did not submit offense or zero reports for at least three months of the year.

5) Agency reported using Summary data for 2023.

6) Agency only employs part time officers.

7) Arson is included in this report but is not included in Crime Index Totals.

8) Due to the low population numbers and the unique coverage area of Wyandotte County Sheriff's Office, the Index numbers are not calculated for this agency.

9) The 2023 submissions for this agency were signiciantly lower than previous years.

10) Total population does not include number for agencies that did not submit any data in 2023. The entire state estimated population for 2023 is 3,044,766.

11) Reporting for this agency is handled by another agency and the status is listed as covered by.

12) Tribal Police are not required to submit data to the KBI. They may have reported to Bureau of Indian Affairs.
